

This is to express my concern over the new lpfm stations taking priority over existing fm stations. In particular, there are two Christian radio stations that I support, K-Love and Airl, that I am concerned we could lose. These stations, run by EMF Broadcasting, provide a safe, family-friendly alternative to much of what is publicly available on other stations. The music and inspiration from these two stations are an integral part of my daily life, and I appreciate the family-oriented messages and news stories as well. They provide a unique service compared to other stations that I know of, in that they have a staff of pastors and counselors available 24 hrs a day through a toll-free number. And because both stations are FULLY listener-supported, non-commercial stations, I think it is obvious that others in my area feel the same, or they would not have the funding to operate. Please consider my plea and those from others who feel similarly, before you put these kinds of stations in jeopardy. Thank you for your consideration.
